Guide

Guide to Supervised Practice

Issued August 2021

Revised June 2025

Introduction

Supervision provides a mechanism to ensure safe, ethical and quality occupational therapy practice in the interest of public protection. This document specifies when an occupational therapist is required to practice under supervision and the expectations for supervised registrants and supervising therapists.

As part of this document, NSOTR has included:

- Expectations for supervised registrants and supervising therapists at Levels 1 and 2.
- Guidance on how to create and use Learning Contracts
- Guidance for supervising occupational therapists and developing mentorship plans
- Template:
 - Learning Contract
- Required Forms:
 - The *Supervision Application Form*
 - The *Supervision Evaluation Form* (doubles as the *Re-Entry Program Evaluation Form*)

Acknowledgements

NSOTR would like to acknowledge the generosity of the College of Occupational Therapists of Manitoba (COTM) and the College of Occupational Therapists of Ontario (COTO) in allowing NSOTR to utilize their materials as a foundation to our development of this resource.

Overview of Supervised Practice

Registrants can require supervision as a condition of their licensure for a variety of reasons. The level of supervision required may also vary depending on the situation. Accordingly, NSOTR has three levels of supervised practice:

- **Level 1**
- **Level 2**
- **Re-Entry to Practice**

Each level has different requirements and outcomes and are used in specific situations to protect public safety and in the public interest. Level 1 and Level 2 supervised practice are described in this document. Re-Entry to Practice is covered in the NSOTR *Re-Entry Guide*.

Supervised practice is an *exceptional* right to practice and must in every situation be approved by NSOTR before it occurs. Supervised OTs can only practice in the approved employment setting and under the supervision of their approved supervising therapist(s). **Any changes to the supervision arrangement must be approved by NSOTR.**

A *Supervision Application Form* is included in this document. It must be completed by the supervising therapist, supervised OT, and the employer. We must receive this form and approved the supervision arrangement and supervising therapist before the supervised OT can begin supervised practice.

What are the requirements to be a supervising therapist?

To act as a supervisor, an occupational therapist must:

- hold a practicing licence with NSOTR in good standing*
- reside in Nova Scotia**
- practice at the same physical site as the supervised OT during approximately the same hours they will be practicing there**
- be engaged in a similar scope and area of practice to the supervised OT
- have a minimum one (1) year of full-time practice experience (1900 practice hours) and preferably three (3) years of full-time practice experience

* **“Good standing”** means a registrant who holds a practicing licence, is current in their continuing competence requirements, does not owe any outstanding fees or costs to the Regulator and is not subject to any licensing sanction or ongoing regulatory process that impacts their ability to act as a supervisor.

*** these requirements can be waived at the discretion of the Registrar. Please see “Off-site supervision, multiple supervisors, or alternative supervision arrangements” below.*

A supervising occupational therapist also agrees to:

- comply with any additional requirements concerning the supervision or practice arrangement of the supervised OT which are specified by the Registration and Licensing decision maker or an authorized committee;
- remain in good standing/maintain eligibility for the duration of the supervision;
- promptly report to NSOTR in writing concerning the performance and conduct of the supervised OT upon request;
- notify NSOTR promptly if they are concerned about the practice of the supervised OT or if any change occurs in supervision;
- remain in good standing with NSOTR for as long as they act as a supervising therapist and notify NSOTR immediately if they are no longer eligible to be a supervising therapist; and
- if necessary, enter into a written agreement with NSOTR that defines additional obligations, procedures, or conditions for them to act as a supervising therapist.

Off-site supervision, multiple supervisors, or alternative supervision arrangements:

Typically, the supervising therapist must be “**on-site**”, meaning they practice in the same physical location as the supervised OT and broadly the same work hours as the supervised OT. If this is not possible because the supervised OT is working in multiple locations or positions or the supervising therapist is off-site, you can request permission from the Registrar for another supervision arrangement.

To request approval of a supervision arrangement that involves multiple supervising therapists, off-site supervision, or multiple places of work:

- the supervising therapist(s) and supervised OT must submit a *Supervisory Plan* that explains how supervision will occur to the Registrar for approval
- if there are multiple supervising therapists:
 - each supervising therapist must sign a separate *Supervision Application Form* and participate in the development of the Supervisory Plan
 - the Supervisory Plan must clearly explain how supervision responsibilities will be divided between the supervising therapists
- one supervisor must be designated as the primary supervisor and will take responsibility for ensuring the Supervisory Plan is implemented and coordinating with the other supervising therapist(s) to submit any reports to the Regulator

In-person connection facilitates learning and allows regular observations, both formal and informal, of the supervised OT's practice. Off-site or remote supervision can result in gaps in learning, observation, and support. A supervisory plan must explain how the supervising therapist and supervised OT will address these gaps.

Supervisory Plans:

All supervising therapists and supervised OTs should complete a Supervisory Plan to support the supervised OT and set out clear expectations and procedures for the supervised practice.

The Supervisory Plan must be submitted to NSOTR for:

- Level 1 supervised practice if you wish to request an alternative supervisory arrangement
- All Level 2 supervised practice

A Supervisory Plan should include:

- The frequency and duration of meetings between the supervisor(s) and the OT
- If there are multiple supervisors, the periods during which each person will be responsible for supervising the supervised OT
- When and if in-person or direct observations of practice will occur
- How the OT will contact their supervisor(s) in urgent or emergency situations
- How the supervisor(s) plans on monitoring practice while off-site (for example, evaluation of charting, caseload management, file review, etc.)
- Any restrictions or additional safeguards in place to ensure the safety of clients and the supervised OT (for example, not using a higher-risk practice approaches with ensuring appropriate supervision)

A Supervisory Plan is often combined with a mentorship plan.

Supervision Activities

Supervision activities should match the skills and experience of the supervised practice candidate in relation to the practice environment. The nature and extent of supervision should reflect the supervised OT's background, experience, strengths and areas for development based on the information obtained from the resume, an interview, references, personal observations, and the Learning Contract if applicable. Many mentorship and orientation activities can also support supervision.

Some examples of mentorship and supervision activities include:

- New employee site orientation to the facility (mission and strategic direction, general policies and procedures, safety practices, organizational chart, confidentiality policies, emergency procedures, tour, etc.)
- Service/program orientation (introduction to new staff, location of equipment, resources, record keeping processes, review of job description, performance expectations, infection control, security, etc.)
- Clinical orientation (specific occupational therapy policies and procedures, clinical protocols, standards of practice, referrals, client scheduling, planning, charting, guidelines, care conferences, departmental meetings, teaching rounds, etc.)
- Orientation to other relevant service providers / organizations, including how to obtain equipment and services on behalf of a client
- Regular meetings with the supervising therapist to discuss assigned cases, identify problem areas, share clinical reasoning, and review written records.
- Directly observing the supervised registrant's client interactions (regularly, if required).
- Share client stories (formally in teaching rounds) and informally (with practice supervisors).
- Department/program in-service as presenter or active participant.

Level 1 Supervision – Sponsored Practice

Sponsored Practice is used when a registrant or applicant has not passed the National Occupational Therapy Certification Examination or has been assigned this level of supervision by the Regulator.

In Sponsored Practice:

- the supervised OT guides the supervision relationship. They are responsible for contacting their supervisor(s) when they require support and proactively identifying areas in which they may need additional training or guidance.
- the supervising therapist(s) ensures that they are aware of the supervised OT's practice and activities and makes themselves available to provide support as required or as specified in a supervisory plan.

Level 1 supervision is a requirement for:

- New Canadian graduates and internationally-educated OTs who have not yet completed the National Occupational Therapy Certification Exam ("NOTCE Candidates")
- Registrants by mutual agreement or as directed by a decision of a relevant committee of the Regulator or a Registration and Licensing decision maker.

Additional Rules for NOTCE Candidates:

Until they complete the NOTCE, NOTCE Candidates are only eligible for a **Conditional** licence.

Their licence will have the following conditions:

- they must practice **under supervision** of a licensed occupational therapist
- they may only use the following titles:
 - Provisional OT
 - Provisional Occupational Therapist
- they must write the NOTCE at the first opportunity, unless extenuating circumstances apply

Expectations of Level 1 Supervised OTs:

- 1 The supervised OT will inform their employer(s) and supervising therapist(s) of the requirements for Level 1 supervision. Before starting employment, they will ensure they have approval from the Regulator for their supervised practice and submit all required documents to the Regulator, including the supervision application form(s) and a supervisory plan if necessary.

- 2 The supervised OT accepts responsibility to initiate communication with their supervising therapist when they require support and/or as specified in the supervisory plan, if relevant.

- 3 The supervised OT will proactively identify practice areas or activities for which they require support, additional training, or supervision and will seek support from their supervising therapist(s) to ensure they are practicing safely and competently prior to engaging in those areas or activities.

- 4 The supervised OT will notify NSOTR if their employment or the availability of a supervisor change prior to the completion of the supervised practice requirement. The supervised OT will only continue practicing once alternative supervisory arrangements are in place. Any changes to a supervision application form or a supervisory plan are subject to approval by NSOTR.

- 5 If required to write the NOTCE, the supervised OT will sit the exam at the first available opportunity, except where extenuating circumstances apply, and will inform NSOTR of their examination result within one month of receiving the result.

Expectations of Level 1 Supervising Therapists:

- 1 Unless otherwise approved by the Registrar, a supervising therapist must be an on-site occupational therapist licensed with NSOTR with the equivalent of at least one-year full time experience (1900hrs) and preferably three years of full-time experience.

- 2 The supervising therapist will immediately notify NSOTR if they have any concerns or issues regarding the supervision application or the conduct or competence of the supervised therapist.

- 3 The supervising therapist will ensure they are available to provide support to the supervised OT when required, either on-site or as specified in the supervisory plan.

- 4 The supervising therapist will ensure that they have sufficient knowledge and skill in the practice area(s) in which the supervised OT will be working to ensure that the supervised OT is practicing safely, ethically, and effectively and provide practice support if necessary.

- The supervising therapist will ensure that they are aware of the schedule, practice area(s) and activities, client population, and general conduct of the supervised OT.

They may accomplish this through:

 - 5
 - direct observation;
 - discussion with colleagues who are occupational therapists or regulated health professionals and who have directly observed the practice of the supervised OT;
 - clinical oversight;
 - or as specified in the supervision plan.

- 6 The supervising therapist will report in writing to NSOTR regarding the performance of the supervised OT upon request.

- 7 The supervising therapist will remain in good standing with NSOTR for the duration of the supervised practice period and will notify the NSOTR if they are no longer eligible to act as a supervising therapist for any reason.

Level 2 Supervision – Mandatory Supervised Practice

Mandatory Supervised Practice is used when an applicant or registrant requires a more comprehensive level of supervision to support their practice and learning and/or to protect the public interest.

In Mandatory Supervised Practice:

- The supervised OT creates a Learning Contract with their supervising therapist(s) that defines the applicant's learning needs and the expectations of the supervised practice period.
- The supervised OT and supervising therapist(s) must submit a supervisory plan to NSOTR for approval that specifies exactly how supervision will take place.
- The supervising therapist(s) is responsible for regularly monitoring the progress of the supervised OT towards the learning goals in their Learning Contract and ensuring that the supervised OT is providing safe, ethical, and effective care.

Level 2 supervision is a requirement for:

- National Occupational Therapy Certification Exam candidates who did not successfully complete the NOTCE on the first attempt.
- Registrants who require supervision as a result of the Competence Review or Competence Improvement process.
- Registrants by mutual agreement or as directed by a decision of a relevant committee of the Regulator or a Registration and Licensing decision maker.

Expectations of Level 2 Supervised OTs:

- 1 The supervised OT will inform their employer(s) and supervising therapist(s) of the requirements for Level 2 supervision. Before starting employment, they will ensure they have approval from the Regulator for their supervised practice and submit all required documents to the Regulator, including the supervision application form(s) and a supervisory plan.

- 2 The supervised OT will create, with their supervising therapist(s), a learning contract that defines the supervised OT's learning needs and the expectations of the supervised practice period. The learning contract should allow the applicant to demonstrate they meet the *Competencies for Occupational Therapists in Canada, 2021* and will form the basis for the mid-term and final performance review by the supervising therapist(s).

- 3 The supervised OT will submit the completed Learning Contract to NSOTR for approval within one week of beginning supervised practice, unless an extension is granted by NSOTR.

- 4 The supervised OT will notify NSOTR if their employment or the availability of a supervisor change prior to the completion of the supervised practice requirement. The supervised OT will only continue practicing once alternative supervisory arrangements are in place. Any changes to a supervision application form or a supervisory plan are subject to approval by NSOTR.

- 5 The supervised OT accepts responsibility to initiate communication with their supervising therapist(s) when they require support and to meet all requirements of the supervisory plan and Learning Contract, including attending all scheduled meetings with their supervising therapist(s) and promptly providing all information or documentation requested by their supervising therapist(s).

- 6 If required to write the NOTCE, the supervised OT will sit the exam at the first available opportunity, except where extenuating circumstances apply, and will inform NSOTR of their examination result within one month of receiving the result.

Expectations of Level 2 Supervising Therapists:

- 1 Unless otherwise approved by the Registrar, a supervising therapist must be an on-site occupational therapist licensed with NSOTR with the equivalent of at least one-year full time experience (1900hrs) and preferably three years of full-time experience.

- 2 The supervising therapist is responsible to ensure that the Learning Contract adheres to the goals outlined by the applicant and NSOTR and addresses any learning needs that would prevent the supervised OT from providing safe, ethical, and effective care.

- 3 The supervising therapist will ensure that they are aware of the schedule, practice area(s) and activities, client population, and general conduct of the supervised OT, as specified in a supervision plan approved by the Regulator. Supervision will involve direct observation of practice and clinical oversight, unless otherwise approved by the Registrar.

- 4 The supervising therapist must submit an evaluation of the applicant's performance to NSOTR using the NSOTR *Competencies for Occupational Therapists in Canada Supervision Evaluation Form* at the midway point and at the conclusion of the supervised practice. The supervising therapist will provide additional evaluations and/or reports upon request.

- 5 The supervising therapist will immediately notify NSOTR if they have any concerns or issues regarding the supervision application form, the supervisory plan, the Learning Contract, or the conduct or competence of the supervised therapist.

- 6 The supervising therapist will ensure they are available to provide support and oversight to the supervised OT as specified in the supervisory plan.

- 7 The supervising therapist will ensure that they have sufficient knowledge and skill in the practice area(s) in which the supervised OT will be working to ensure that the supervised OT is practicing safely, ethically, and effectively and provide practice support if necessary.

- 8 The supervising therapist will remain in good standing with NSOTR for the duration of the supervised practice period and will notify the NSOTR if they are no longer eligible to act as a supervising therapist for any reason.

SUPERVISION APPLICATION FORM

This form must be signed by the applicant, the supervising therapist, and the employer, and returned to NSOTR before the applicant can be licensed and before they can start work. Completion of this form does not authorize an individual to engage in supervised practice or imply that they are licensed with NSOTR.

Applicant Acknowledgement

I, _____ [name of applicant/registrant] understand that I must practice under level ____ supervision until I have met all NSOTR's registration and licensure requirements. I accept the responsibility to meet all expectations listed in the *Guide to Supervised Practice* for my level of supervised practice.

I understand that:

- I am only authorized to practice under supervision subject to these expectations and that failure to meet NSOTR's expectations may result in the revocation of that authorization.
- I am only authorized to practice under supervision in an approved employment setting and may not practice in any other employment setting without the approval of NSOTR.
- My supervisor is required to communicate with NSOTR regarding any issues or concerns that arise during my supervised practice.
- I am responsible for notifying my supervising therapist(s) and employer(s) of any NSOTR requirements, conditions, restrictions, or deadlines related to my supervised practice.

Signature: _____ Date: _____

Important Reminder: You may **not** begin working (including participating in orientation or training at the workplace) as an OT until you are licensed with NSOTR and have received written confirmation that they may begin supervised practice and a licence number.

Employer Acknowledgement

To be completed by a representative of the organization which will be employing the supervised OT who has authority over employment decisions, such as the hiring manager, executive director, human resources manager, or department head:

I support _____ [name of supervised OT] engaging in supervised practice, subject to any practice conditions, restrictions, or limitations imposed by NSOTR.

Name: _____ Title: _____

Signature: _____

Employer/Organization: _____

(address and telephone number of facility/facilities where supervised OT will practice)

Anticipated start date of employment or supervised practice: _____

Important Reminder: *The applicant may **not** begin working (including participating in orientation or training at the workplace) as an OT until they are licensed with NSOTR and have received written confirmation that they may begin supervised practice and a licence number.*

Supervising Therapist Acknowledgement

I confirm that I will provide Level ____ supervision for _____ (name of supervised OT) throughout their employment period while they hold a conditional licence with NSOTR with a supervised practice condition. I also confirm that either:

- I have support from my employer to act as a supervising therapist, **OR**
- I will directly employ the supervised OT.

I agree to:

- adhere to the expectations of a supervising therapist per the NSOTR *Registration Policies* and the *Guide for Supervised Practice* for the level of supervision I will provide;
- promptly report to NSOTR in writing concerning the performance and conduct of the supervised OT upon request;
- notify NSOTR promptly if I am concerned about the practice of the supervised OT or if any change occurs in supervision;
- remain in good standing with NSOTR for as long as I act as a supervising therapist and notify NSOTR immediately if I am no longer eligible to be a supervising therapist; and
- if necessary, enter into a written agreement with NSOTR that defines additional obligations, procedures, or conditions for me to act as a supervising therapist.

Name: _____ NSOTR Registration Number: _____

Title: _____

Employer/Organization Name: _____

I confirm that I will be practicing at the same physical location as the supervised registrant during the hours they will be practicing: Yes ☐ No* ☐

Phone Number (work): _____ Phone Number (cell): _____

Email: _____

Signature: _____ Date: _____

**If no, approval from the Registrar is required. The supervisor(s) and the supervised registrant must sign and submit a Supervision Plan to receive permission for off-site supervision, multiple supervisors, or alternate supervision arrangements. Contact registration@nsotr.ca or 902-455-0556 for additional information.*

Summary of Supervised Practice Requirements

Eligibility Criteria for Supervising Therapists:

To act as a supervising therapist, an occupational therapist must:

- hold a practicing licence with NSOTR in good standing
- reside in Nova Scotia*
- practice at the same physical site as the supervised OT during approximately the same hours they will be practicing there*
- be engaged in a similar scope and area of practice to the supervised OT
- have a minimum one (1) year of full-time practice experience (1900 practice hours) and preferably three (3) years of full-time practice experience

** requirement may be excused at the discretion of the Registrar.*

Level	Who requires supervision at this level?
Level 1 Sponsored Practice	<ul style="list-style-type: none"> • New Canadian graduates and internationally-educated OTs who have not yet completed the National Occupational Therapy Certification Exam (“NOTCE Candidates”) • Registrants by mutual agreement or as directed by a decision of a relevant committee of the Regulator or a Registration and Licensing decision maker.

Level	Required Documents
Level 1 Sponsored Practice	<ul style="list-style-type: none"> • Supervision Application Form • Supervision Plan (if requesting multiple supervisors, or an off-site, remote, or alternative supervision arrangement)
Level 2 Mandatory Supervised Practice	<ul style="list-style-type: none"> • Supervision Application Form • Supervision Plan • Learning Contract (within 1 week of the start of supervised practice) • Mid-term report (after 50% of the supervised practice) • Final report (at the end of supervised practice)

Using Learning Contracts¹

Identifying Strategies to Address Learning Needs

Question: What knowledge, skills and behaviours do you need to develop now to meet your identified learning needs?

A **learning need** is the gap between where you are now and where you want or need to be in regard to mastering a new set of competencies. Before you try to develop strategies to address your learning, it is helpful to clearly understand the competency you are trying to achieve.

A **competency** can be thought of as the ability to do something at some level of proficiency, and is usually composed of some combination of knowledge, judgment, understanding, skill, attitude, and values. An everyday example would be “the ability to ride a bicycle from your home to the store.” This is a competency that involves:

- some knowledge of how a bicycle operates and the route to the store;
- an understanding of some of the dangers inherent in riding a bicycle;
- skill in mounting, pedaling, steering, and stopping a bicycle;
- an attitude of desire to ride a bicycle;
- value in the exercise it will yield.

"Ability to ride a bicycle in busy city traffic" would be a higher-level competency that would require greater knowledge, understanding, skill, etc.

The [*Competencies for Occupational Therapists in Canada*](#) outlines the competencies required to practice occupational therapy and will serve as a useful resource. You may want to reflect on these statements and consider which activities in your practice apply to each.

Writing Objectives

What is it that you wish to do or demonstrate? In many cases the learning objectives will be identified for you by your supervisor, employer, or by NSOTR. However, you should ensure that the learning objectives are clearly outlined and you understand them and the steps you need to take to meet them.

A well-defined objective should be:

S – specific

M – measurable

A – achievable

R – realistic

T – time limited

The following process is recommended for the development, implementation and evaluation of the learning contract:

1. (a) The supervising therapist provides the supervised OT with an orientation to the workplace.
(b) The supervised OT provides the supervising therapist with an orientation to their learning needs based on the specific nature and requirements of the clinical setting, their past experience, and their current level of knowledge and skill.
2. The supervised OT and supervising therapist develop specific learning objectives related to the identified learning needs that are clear and measurable.
3. The supervised OT consults with the supervising therapist to identify learning strategies (e.g. observation, discussion, role modeling) and potential learning resources (e.g. books, journals, resource people, community services). The onus is on the supervised OT to identify strategies and is thus able to choose learning experiences that are best suited to their learning needs and personal learning style.
4. The supervised OT and supervising therapist agree on the evidence of accomplishments that will be used for the evaluation (e.g. behaviours, reports, direct observation and presentations).
5. The supervised OT and supervising therapist determine how the evidence will be evaluated (e.g. what is the required performance, what standards are being used to measure performance and under what conditions learning will take place?). The grading scheme for each objective must clearly specify what evidence must be provided to demonstrate if the learning objective has

been met or not.

6. The supervised OT and supervising therapist have a mutual responsibility to meet and evaluate the supervised OT's performance. In preparation for evaluations, both the supervised OT and supervising therapist should reflect on the supervised OT's performance and prepare documentation to validate their evaluation.

¹NSOTR would like to acknowledge and thank the Occupational Therapy Program, School of Rehabilitation Science, at McMaster University which serves as the basis of the learning contract materials.

COMPONENTS OF A LEARNING CONTRACT

Objectives	Resources and Approach/ Strategy	Evidence of Accomplishments	Grading	Timelines/ Checkpoints	Met	Not Met	Comments
<p>This column answers the question</p> <p>WHAT IS THE THERAPIST/ APPLICANT REQUIRED TO DO OR DEMONSTRATE?</p> <p>An objective should be: S - specific M - measurable A - achievable R - realistic T - time limited</p>	<p>This column answers the question</p> <p>HOW WILL THE THERAPIST PREPARE TO ACHIEVE THE OBJECTIVE?</p> <p>1. Resources should be specifically named and prioritized. They may include reference texts, articles, websites, other clinicians, community resources.</p> <p>2. The approach/ strategy describes the process. Examples include: - - opportunity to observe skills or tasks - discussion and feedback with therapist - documenting needs, actions and time management</p>	<p>This column answers the question</p> <p>WHAT ARE THE IDENTIFYING PARTS OF THE KNOWLEDGE, SKILL, JUDGMENT OR BEHAVIOUR THAT WILL BE PROOF OF THE THERAPIST'S COMPETENCE (WHAT WILL THE THERAPIST SAY, WRITE, OR DO?)</p> <p>Evidence should include quantity and quality.</p> <p>Evidence should be prioritized.</p> <p>Timeframe for achievement of specific evidence should be identified.</p>	<p>This column answers the question</p> <p>WHAT ARE THE GUIDELINES OR CRITERIA FOR DETERMINING THAT EACH OBJECTIVE HAS BEEN MET OR NOT?</p>				

EVALUATION USING LEARNING CONTRACTS and CRITICAL APPRAISAL OF LEARNING CONTRACTS

Example One:

Objectives	Resources and Approach/ Strategy	Evidence of Accomplishments	Grading	Timelines/ Checkpoints	Met	Not Met	Comments
The therapist will work collaboratively with the team and facilitate a coordinated approach to care with other health care professionals, caregivers and team members	Resource: - other team members - other OT's on team Approach - case review meetings and discussions with OT peers prior to team meetings - debriefing meeting with team leader following meetings	A - read charts daily before intervention and be mindful of chart information in intervention B - attends and is prepared for case conferences C - reports accurately at case conferences D - alerts team to client needs and problems E - shares and requests information of whole team F - other team members understand OT treatment G - initiates problem solving and planning in team for client H - other team members consults therapist directly about client	Objective met if (A – H) are demonstrated Objective not met if any of (A-H) are not demonstrated	Review in one month with practice supervisor – feedback from team leader to be provided.			

Example Two:

Objectives	Resources and Approach/ Strategy	Evidence of Accomplishments	Grading	Timelines/ Checkpoints	Met	Not Met	Comments
- To demonstrate clinical reasoning through integration of knowledge, skill and experience, by developing & demonstrating skill in interpretation of assessment finding; (demonstrated by use of verbal & written communication skills, problem identification, program planning and implementation)	<p>Therapist: occupational performance booklet, OSOT perceptual evaluation assessment, clinical experience, articles on problem identification, program planning, and treatment</p> <p>Practice Supervisor: knowledge of problem identification, program planning & implementation and OSOT battery, other reference materials</p> <p>Strategies: - look up articles & read client charts -discuss goals & objectives for client during session. - identify any necessary assessments (i.e. OSOT perceptual evaluation, Fostig, Bruunstrom, etc.) to be utilized - administer assessment or treatment session - discuss future goals and objectives for treatment</p>	<p>a) identify client's strengths & weaknesses through discussion using the occupational performance model</p> <p>b) identify problems, goals, objectives & treatment measures in a written summary for a minimum of three clients</p> <p>c) demonstrate knowledge of administration of the OSOT perceptual assessment with one client & critically appraise the findings, the overall assessment and/or subsequent treatment.</p> <p>d) give self-appraisal of each session, ask for supervisor evaluation, and problem solve on how to improve the next session</p> <p>e) prepare a written summary of assessment or treatment findings, strengths, weaknesses and observations for a minimum of three clients</p>	<p>Objective met when (a) through (e) are demonstrated.</p> <p>Objective not met if any of (a) through (e) are not demonstrated.</p>	Review in one month with practice supervisor – feedback from team leader to be provided.

Competencies for Occupational Therapists in Canada Supervision Evaluation Form

Usage: This form is used to assess the competence and performance of conditional registrants under supervised practice, including those registrants completing supervised practice requirements as part of a Re-Entry Program.

Indicate whether the supervised registrant meets the level of knowledge and skill expected of an entry-level OT (a new graduate of a Canadian Occupational Therapy Program) in each competency area. If a competency was not assessed or is not relevant, you may mark it as N/A.

Date Form Completed: _____

Registrant Name: _____

Supervising OT(s): _____

Facility or Site(s): _____

Dates of Supervised Practice: _____

Total # of Hours (to date): _____

Description of Scope and Activities of Supervised Practice:

SUPERVISION EVALUATION FORM

Domain	Competency	Competent At Entry Level (Y/N)	Examples / Comments
A	Occupational Therapy Expertise		
A1	Establishes trusted professional relationships with clients		
A1.1	Co-creates with clients a shared understanding of scope of services, expectations, and priorities		
A1.2	Uses a mutually respectful approach to determine the nature of the services to be delivered.		
A1.3	Responds to requests for service promptly and clearly.		
A1.4	Supports clients to make informed decisions, discussing risks, benefits, and consequences.		
A2	Uses occupational analysis throughout practice		
A2.1	Keeps clients' occupations at the centre of practice.		
A2.2	Facilitates clients' use of their strengths and resources to sustain occupational participation.		
A2.3	Addresses the strengths and barriers in systems such as health care that could affect occupational participation.		
A2.4	Applies knowledge, evidence, and critical thinking from social, behavioural, biological, and occupational sciences to analyze occupational participation.		
A2.5	Shares rationale for decisions.		
A3	Determines clients' needs and goals for occupational therapy services		
A3.1	Responds to the context that influences the client's request for occupational therapy service.		
A3.2	Develops a shared understanding of the client's occupational challenges and goals.		
A3.3	Decides whether occupational therapy services are appropriate at this time.		
A3.4	Evaluates risks with the client and others.		
A3.5	Periodically reviews the client's expectations with them.		

NSOTR Supervision Evaluation Form

Domain	Competency	Competent At Entry Level (Y/N)	Examples / Comments
A4	Assesses occupational participation		
A4.1	Agrees on the assessment approach with client.		
A4.2	Selects assessment tools and methods that fit the agreed approach.		
A4.3	Takes into account the impact of the client’s context on the assessment process and outcome.		
A4.4	Incorporates the client’s perspectives and opportunities throughout the assessment process.		
A5	Develops plans with clients to facilitate occupational participation		
A5.1	Agrees on the service delivery approach with client.		
A5.2	Determines intervention, timelines, outcomes, resources, contingency plans and responsibilities.		
A5.3	Anticipates and addresses implementation difficulties.		
A6	Implements the occupational therapy plan		
A6.1	Supports clients in accessing and using the resources to implement their plans.		
A6.2	Confirms shared understandings and progress of the plan.		
A6.3	Evaluates the results with the client and others involved in the plan.		
A6.4	Adjusts occupational therapy services based on the evaluation.		
A6.5	Plans for concluding services, ongoing services, or a transition to other services.		
A7	Manages the assignment of services to assistants and others		
A7.1	Identifies practice situations where clients may benefit from services assigned to assistants or others.		
A7.2	Assigns services only to assistants and others who are competent to deliver the services.		
A7.3	Monitors the safety and effectiveness of assignments through supervision, mentoring, teaching, and coaching.		
A7.4	Follows the regulatory guidance for assigning and supervising services.		

NSOTR Supervision Evaluation Form

Domain	Competency	Competent At Entry Level (Y/N)	Examples / Comments
B	Communication and Collaboration		
B1	Communicates in a respectful and effective manner		
B1.1	Organizes thoughts, prepare content, and present professional views clearly.		
B1.2	Fosters the exchange of information to develop mutual understanding.
